

OVERVIEW OF THE ASSET RESULTS FOR YEAR 2009

Congratulations to All!

Dear Parents,

We are happy to share with you the overall performance of the school in the ASSET test conducted by Educational Initiatives.

As you are aware that our children have appeared for the second time, the results are quite encouraging. The results given below clearly indicate that the Orchid School has performed above the national average.

It is noted that the overall performance of the school is good. The children have performed well in different skills in all subjects.

English – Comprehension, vocabulary in context and extended reasoning.

Math - Word and application problems.

Science - Knowledge of basic science facts, reasoning and analysis.

There are few areas like spellings and grammar which need attention for improvement. The teachers are identifying the skills and the sub skills and working on them. ASSET meetings are conducted regularly to review the same. A follow up meeting with the ASSET personnel will happen again in the month of February.

Thanks

TOS Team
