

## AN AMAZING EXPERIENCE OF LIFE WITH THE LILA JUNIORS.....

Last Day with the Lila Juniors ☺☺.... Yes, 30<sup>th</sup> August,2015 was our last day with the girls. The day went something like this..... Firstly, we did a quick recap of all the topics we had covered in both Maths and English with them. Then each intern had prepared a worksheet for their own group which was like a Concept Test to check how much we have succeeded in teaching them and how quickly they have grasped the topics taught. During this time we completed the writing of certificates for them. After the worksheet solving, each group intern checked the worksheet and found out that most of the Lila Juniors were finding it easy to do English and Math. This made us very proud that our aim was fulfilled to an extent.

After the worksheet we had a small snacks time where each of us expressed our feelings towards each other. From this moment, everyone got emotional and many of them started crying too. After the girls shared their feelings we started distributing the certificates we had made for the LJs. After we distributed the certificates the girls gave us what they had made for us with love .....

The last day ended with all of us coming back with heavy hearts.... We had been looking forward to our weekends with the Lila Juniors all this while and now.... it's all over..... But we are sure that the next batch that will go to Kamshtet will come back with the same memories that we will cherish all our lives.
